

PHWC

PSYCHOLOGICAL HEALTH & WELLNESS CLINIC

6 January 2022

### Letter of Interest

Dear Taqiul Ghani,

With your express of interest in Project Rummana. We are delighted to let you know that this project is of intrinsic value to our youth and disabled community.

PHWC was established in 2018, and provides a holistic approach to mental wellbeing services ranging from psychiatric assessments to individual and group counselling, module development for youth programmes, customised trainings and workshops on mental health and wellbeing, and Employee Assistance Programme (EAP) to various organisations. We are the only preferred partner of ROX ICAS UK, in Bangladesh – ICAS is a leading global provider of mental health and wellbeing services.

Bangladesh is a country crossed with a culture that suppresses topics of mental health, making it a taboo in the society. It is a sector that has been neglected for decades, creating a barrier among our citizens to have a better life.

Given the opportunity, PHWC would very much like to collaborate with you for project Rummana in raising awareness around mental health and providing tools and techniques to individuals in pursuit of a healthy and positive outlook on life.

Looking forward to developing a collaborative working relationship with you and your vision for a better future.

Sincerely,

Iram Akhtar  
Business Development Manager

PSYCHOLOGICAL HEALTH AND WELLNESS CLINIC LTD
